Dear Mr. Wilson:

RE: ML 45866-Volcanic Materials

The state Resource Development Coordinating Committee has reviewed you proposed mining operation under the above numbered lease and determined no significant impact. Prior to commencing operations, however, you must submit a cultural resources survey as previously requested.

You must also submit a reclamation bond in the amount of \$20,000 with a bonding company that is licensed in Utah. I am enclosing the required surety bond form. In-lieu of a surety bond you may submit a short term renewable time CD from a banking institution, licensed in Utah, with the division listed as co-owner of the CD.

I am enclosing with this letter a recommendation for reseeding the disturbed surface areas following your mining operation.

Thank you for your cooperation. Please contact me if you have any questions.

Sincerely,

JOHN T. BLAKE
MINERAL RESOURCES SPECIALIST

JTB/tdw
